React Js | Next js | HTML5 | CSS3 | JavaScript | MUI | Tailwind | Bootstrap | Git/GitHub | REST APIs | TypeScript

PROJECTS

FastTrack
Job Portal Platform
https://fasttrack.apperion.ai/
Job Placement | Recruitment | Candidate Database Portal
- Developed frontend UI for a job portal platform using React.js and Next.js.
- Implemented features such as job listings, user registration, profile creation, and responsive layouts.
- Focused on user-friendly design and smooth navigation for job seekers and employers.

QuantumForce
https://www.quantumforce.us/
Jira-like Project Management System
- Built an organization-based system where users can sign up as an organization.

Implemented modules to:
- Add employees
- Assign tasks and goals
- Manage portfolios and project details
- Track employee tasks and progress
- Created dashboards, forms, and interactive UI components using React.js.
- Designed role-based UI for admin and employees.

My Portfolio Website
- **Technologies Used:** React, Tailwind CSS
- **Description:** Developed a responsive and dynamic personal portfolio website to showcase various projects. Utilized React for building interactive UI components and Tailwind CSS for efficient and modern styling. The portfolio includes detailed descriptions of multiple projects, demonstrating skills in web development, user interface design, and responsive web design. Features a clean and intuitive layout, optimized for performance and accessibility.
